Work-life balance and older women – how not to overlook them?

Presentation for the CEPS-AGE common lunch debate
AGE Platform Europe – Philippe Seidel
03/07/2018 – CEPS, Brussels
About AGE and its mission
Voicing the needs and concerns of older people in Europe

AGE Platform Europe is a European network of about 150 organisations of and for people aged 50+ which aims to voice and promote the interests of 40 million senior citizens in the European Union and to raise awareness on the issues that concern them most.

We aim at:

• Bringing older people's point of view in the European policies' debates
• Raising awareness on the users' needs and wishes to add value to the European research, to industrial production, to the service provision and policy-making.
• Creating synergies and pooling with other NGOs and stakeholders
Gender (In)equalities

- In pensions: Gender Pension Gap of 37%
- In employment, especially in later careers
- Work-life balance for carers
- Adequate care infrastructure
- In access to services (financial services)
- Violence and abuse / Elder abuse
‘Work’
Paid and unpaid
Total working time – men and women

Eurofound, Quality of Life Survey 2016
Employment rates of older workers in perspective

Population 55-64 years-old in the EU (in 10,000 people)

2016 employment rates
15-64 y.o.: 72.9%
55-64 y.o.: 59.1%
55-64 y.o.: 52%
Gender gap 55-64 y.-o.: 14 pps.
Gender gap 15-64 y.o.: 11.2 pps.

Eurostat 2018
Hours spent caring for grandchildren

Eurofound, Quality of Life Survey 2016
Hours spent caring for family members +75

Eurofound, Quality of Life Survey 2016
Informal care in calculating the costs of ageing

‘Indeed, a large proportion of LTC in the EU is actually provided by informal carers such as family members and friends – mainly spouses and children. Informal care is in principle not paid and there is no formalised contract, even though an informal care giver may receive income transfers and, possibly, some payments from the person receiving care. Although it substitutes publicly funded LTC, it should be noted that there are “opportunity costs” derived from informal care: the impact on labour market and productivity, as well as on carers' health status itself.’ – European Commission, The 2018 Ageing Report

Activity GDP graph chart

Work-life balance

• Commission proposal to introduce family leaves
  • Paternity leave
  • Non-transferrable parental leave
  • Carers’ leave – 5 days
  • Flexible working arrangements
# Work-life balance: carer’s leave

Option 1: 12 weeks throughout the career, unpaid

Option 2: 4 weeks per career, paid at sick pay level

Option 3: 5 days per year paid at sick-pay level

*Table 12: Estimated macro-economic impact of carers' leave options*

“The minimum infrastructure gap in social infrastructure investment is estimated at EUR 100-150 bn p.a. and represents a total gap of over EUR 1.5 tn in 2018-2030.’

‘[Population ageing] creates the need to make affordable integrated chronic health and social care accessible. EU citizens aged 65+ may expect to be able to manage their daily living activities independently for less than half of their remaining years. Addressing this issue calls for different ways of organising our communities and cities as well as our health, social and long-term care services and housing.’

‘This can only be done through a real boost in public and private investments, working hand in hand to provide the most appropriate, efficient social infrastructure and services for people.’

Long-term care and dignity:

**EUSTACEA**

Sensitise on the specific needs and demands of older people in need for long-term care; prevent and combat elder abuse

**WeDO and WeDO2:**

Develop a sustainable European partnership bringing together organisations which commit to work together for promoting the well-being and dignity of vulnerable older people, and to prevent cases of abuse against them by promoting quality in long-term care
Pension credits / survivor’s benefits

Pension Adequacy Report 2018: ‘Pension credits are a key policy lever that limits the impact on pension adequacy of such career breaks’.

European Pillar of Social Rights Principle 15 (old-age income): pension credits included in the first draft, not in the final version
